

Lake Aurora Health/Sanitation Plan 2022

At Lake Aurora, we are committed to ensuring the health and wellbeing of all of our campers/guests.

To determine best health practices, we have engaged the resources of the CDC, ACA, 3CA and state and federal guidelines.

As such, the following list represents *some* of the procedures we plan to implement to best ensure the health of all in Summer 2022 post Covid-19.

Health Screening Process

- **Pre-screening Participant Arrival**
 - Completed Medical Form on registration/application
 - Prior to arrival, campers/volunteers will be required to complete a medical form.
 - Recent Medical Questionnaire
 - In the 72 hours leading up to participant arrival, all participants will be asked to complete a medical questionnaire that may include at least the following questions:
 - Any NEW fever, cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, new loss of taste or smell
 - In the last 5 days.
 - Have you been in contact with anyone who has lab tested positive for COVID-19 in the last 5 days?
 - If so, please test after 5 days of the last close contact with someone with Covid-19. If the test is negative and no symptoms, the camper may come to camp.

Camp may not be right for all participants. If there are underlying health conditions or one is high risk, they are not encouraged to attend camp .

- **Upon Participant Arrival**
 - Confirmation of completion of Medical Questionnaire
 - Temperatures of every participant will be taken upon arrival. No one with a temperature of 100.4 degrees or over will be allowed to stay at camp.
 - Participants will be asked to list any recent illnesses in the last 14 days.
- **During the Camp Program**
 - If participant becomes ill with a fever of 100.4 or higher they will be quarantined and observed and phone parent/guardian for pick up.
 - On-Site Medical Team
 - We will have an on-site medical team composed of health care professionals, to include one of the following: RN, LPN, PA, EMT, or Red Cross First Responder
 - If a RN is not a part of the team of the week, a local RN will visit the campus to review the daily log book for treatment.

- Most of our summer paid staff are Red Cross First Aid, CPR, AED certified.
- Response to Symptomatic Participants
 - If Symptoms arise in a participant, we will immediately quarantine, contact parents/guardians for pick up.
 - Symptoms we will be looking for include: Fever, cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, and new loss of taste or smell
- Health Center Disinfecting Procedures
 - We fully disinfect every surface in the health center every day according to schedules.
 - Our medical team will be trained to use and PPEs when deemed necessary

Camp Program Precautions/Procedures

- Hygiene Procedures
 - Campers/Participants will either sanitize or wash their before every meal and before activity participation. (Outdoor hand washing stations are being built.)
 - All Meeting rooms will have access to hand sanitizer dispensers
- Cleaning Procedures of Camper areas
 - After every group of guests eats in the dining hall, kitchen staff will clean/sanitize tables and chairs
 - Bathrooms will be fully disinfected multiple times a day.
 - Counselor leaders will have supplies, schedules, and procedures to help sanitize housing units.
- Food Safety
 - The entrances to meal areas will have hand sanitizer dispensers.
 - All kitchen staff will adhere to regulations/guidelines for Food Service
- After Program Departure
 - We will fully disinfect all indoor areas (Housing, bathrooms, meeting rooms, etc.) after every group program.
